IMPORTANT: Keep in mind most programs require letters of recommendation. Begin the application process & request letters at least 3 - 4 weeks before the deadline.

Get involved with activities that are related to your future major or career.
It's a great way to find out more about it <u>and</u> it looks great on your college applications!

2017 SUMMER PROGRAMS

Bank of America Student Leaders   Deadline: January 27
www.bankofamerica.com/neistudentleaders
Program dates: Late June – August   Cost: FREE, paid internship
Eight week paid summer internship with a local nonprofit organization. Take part in an all-expense-paid week in Washington, D.C. Learn how nonprofits, government, and business can partner to create a positive impact in our communities. Open to current juniors or seniors; must be U.S. Citizen or Permanent Resident

MITES   http://summerapp.mit.edu/   Deadline: February 1
The Office of Engineering at MIT offers three great programs. By submitting one application you are automatically considered for one of the three programs, you cannot choose to apply to a particular program. The program is **FREE** but students must cover their transportation to and from MIT.

Minority Introduction to Engineering and Science (MITES)
This intense six-week program immerses students in life at MIT through math and science courses, a challenging hands-on elective course, workshops, guest speakers, and social events.
Learn more about MITES.

Engineering Experience at MIT (E2@MIT)
In this one-week program, students take one of six intensive project-based courses, participate in admissions and financial aid sessions, and participate in lab tours and social events. Learn more about E2.

MIT Online Science, Technology, and Engineering Community (MOSTEC)
From July through January, students in this online program discuss research, receive admissions and financial aid advice, and attend webinars. They also complete online science and engineering projects that they present during a five-day conference on MIT's campus. Learn more about MOSTEC.

COSMOS *http://cosmos-ucop.ucdavis.edu*   Deadline: February 17 on-line app only
A four-week residential program where students work side-by-side with outstanding university researchers and faculty to explore advanced topics in science, technology, engineering and mathematics (STEM) using hands-on projects and labs.
Program dates: July 10 – Aug 5 (UCI) or July 10 – August 6 (UCD/UCSC/UCSD)
Cost: $30 app fee, see flyer for tuition and full/partial scholarship opportunities
(Start early - Long application requires Letters of Recommendation from Math & Science teachers)

Engineering Summer Academy at Penn   Deadline: February 24
https://esap.seas.upenn.edu/
Current 9th -11th graders can apply to experience a three-week Engineering Summer Academy at the University of Pennsylvania. CA State Summer School for the Arts   Deadline: February 28 (received)
www.csssa.org
CSSSA is four weeks of exploration, discovery and hard work designed to unleash your creative power. Talented high school students will receive intensive training from professionals in music, theatre, video and film, visual arts, dance, creative writing, and animation. Held at CalArts in Valencia, CA (near Magic Mountain).
Program dates: July 9 – August 5   Cost: $1,700 (full and partial scholarships available)
Start early - Long application requires Letters of Recommendation from Fine Arts teacher(s)

Pomona College Academy for Youth Success (PAYS)   Deadline: Feb 28 (postmarked)
https://www.pomona.edu/administration/draper-center/pays/apply
Open to 9th graders and a few 10th graders, who can make a three year commitment. Students participate in a four-week summer course at Pomona College and attend monthly activities throughout the year. During the senior year, students get personalized assistance with the college and financial aid process. Even though Orange County is not a target county, the program will accept applications from Segerstrom students and consider them for admission to the program.
Program dates: June 18 - July 14   Cost: FREE

UCI Summer Premed Program   Deadline: Early March
http://www.som.uci.edu/summerpremed/   Program dates: Late June to early August
UCI's Medical Education Office offers 3 great programs to high school students. Programs focus to foster the interest of youth in healthcare and science innovation. Three programs are: 1) Summer Premed Program, 2) Summer Research Program, and 3) Physician Shadowing Program. Students should be 15-18 years of age and have a minimum 3.5 weighted GPA.
All programs fill up quickly, apply early no later than mid-March. *Full and partial scholarships*.

Girls Who Code   www.girlswhocode.fluidreview.com   Deadline: March 1
The Girls Who Code Summer Immersion Program is a 7-week computer science course that embeds classrooms in technology companies and universities. Students learn the fundamentals of computer science - from robotics to how to build a webpage - while gaining exposure to the tech industry and mentorship from women working in technology. Program requires for girls to commute to the program. Closest program takes place in Los Angeles, several available in Northern California. If you have family who live in host cities perhaps you can stay with them. See FAQ page for more information.
