

## **Welcome, Roadrunners, to a new school year!**

The Saddleback High School staff has prepared an enriching and challenging academic curriculum for each and every one of you. We are hopeful that you will experience a year filled with great academic achievement, personal growth and fond memories of many school activities.

I can assure you that you will experience a successful year! As we begin this brand new school year, let's all make a promise to ourselves and to each other. Let's promise to study hard, be respectful of each other, and keep our eyes wide open to the awesome possibilities that a good education has to offer. With something to think about, make it a great year.

## **Mission Statement**

The Saddleback High School Mission has been one of student achievement thus it continues to be rewritten, revised, and updated. The current mission statement reads as follows:

The staff of Saddleback High School strives for excellence in meeting the needs of a diverse student population. School programs stimulate learning and implement the state curriculum standards. Students will develop appropriate social skills, problem-solving techniques, decision-making strategies, and career preparation skills, as well as basic skills and technological expertise to promote life-long learning. We will create an awareness and understanding of individual and civic responsibilities in a multi-ethnic society and foster a respect for self and others.
