THE ARTS: CAREER SKILLS FOR THE CREATIVE ECONOMY

In today's fast-paced world, 21st-century career skills are crucial, and many of these skills are strengthened through the arts. Creativity, critical thinking, collaboration, and communication are all key abilities that students develop when they engage in the arts, whether through music, theater, visual arts, or dance.

The Otis Report on the Creative Economy shows that careers in the arts are in high demand. With millions of jobs in industries like entertainment, design, and media, there's a growing need for individuals who can bring fresh, innovative ideas to these fields. Arts education not only prepares students for careers in the arts but also equips them with the skills needed for success in various industries.

As we prepare for the future, it's clear that arts education is essential for building a workforce ready to meet tomorrow's challenges. By supporting arts education, we ensure every student has the chance to develop these vital skills.

LAS ARTES: HABILIDADES PARA TRABAJAR EN LA ECONOMÍA CREATIVA

En el mundo de hoy, que va muy rápido, es muy importante tener habilidades para el trabajo, y muchas de ellas se pueden aprender a través de las artes. La creatividad, el pensamiento crítico, la colaboración y la comunicación son habilidades que los estudiantes desarrollan cuando participan en actividades artísticas, como la música, el teatro, las artes visuales o la danza.

Un informe sobre la economía creativa muestra que hay muchas oportunidades de trabajo en el mundo del arte. Hay muchos empleos en áreas como el entretenimiento, el diseño y los medios de comunicación, y se necesitan personas que puedan traer ideas nuevas e interesantes a estos trabajos. Aprender sobre arte no solo prepara a los estudiantes para trabajos en este campo, sino que también les da habilidades importantes para tener éxito en otras áreas.

Mientras nos preparamos para el futuro, es claro que la educación artística es esencial para tener un grupo de trabajadores listos para enfrentar los desafíos que vienen. Al apoyar la educación artística, nos aseguramos de que todos los estudiantes tengan la oportunidad de desarrollar estas habilidades importantes.
