Dear ALA Elementary and ALA-EC parents, I would like to introduce myself, my name is Norma Plascencia and I am the Family and Community Engagement Worker. Since this may be your first contact with FACE, I would like to take a moment to describe our role. Our focus as FACE Workers is to strengthen relationships, outreach, and connect with the community for resources.

My Goal is to help empower our families and students to reach their greatest potential. To this role I bring over twelve years of work experience engaging hands on with divergent population including youth students and adults. I hope to collaborate with parents, teachers, and staff to explore all the different avenues through which we can bolster student academic success and social-emotional well-being. I have a strong desire to make a positive difference in people's lives, I am looking forward on working together and make our Wellness Center a safe and inviting space where all feel welcomed.

These next few days I hope to introduce myself to you. I WELCOME each and every one of you to stop by and visit our Wellness Center in Room 126 at ALA Elementary and share your knowledge and experiences with me so that we can determine what resources will benefit you, our students, and our community.
