

Coaching Menu

READY TO SERVE YOU!

CHOOSE FROM A VARIETY OF OPTIONS. MIX AND MATCH TO DESIGN AN EXPERIENCE THAT SERVES YOUR GOALS AND NEEDS.

APPETIZERS

before a lesson

Gather Resources: Assist in finding technology resources or strategies in order to increase literacy and writing and meet the needs of your classroom and curriculum.

Co-Planning: Plan a lesson or series of lessons geared toward student engagement.

Data Chat: Analyze student data to determine instructional strategy decisions.

Differentiation Support: Assist with designing choice assignments, projects, and activities to serve the needs of all students.

DESSERTS

after class

Open Tech Clinic : Before school, during lunch, or during your prep period; you name the place, time and goal.

Website Development: Assist in building or updating your website or learning management system into an instructional tool that extends student learning.

Professional Development: Attend a monthly interactive sessions on integrating technology into teaching and learning in order to increase student achievement and student engagement.

ENTREES

during class

Classroom Assist: Serve as an extra pair of hands or eyes while you try out a new strategy or technology during a lesson.

Co-Teaching: Collaboratively plan and teach a lesson together to help make you comfortable using the technology or strategy in your classroom.

Tech Demonstration: Model a lesson or concept using technology in my classroom or your own while you observe and assist.

EXTRAS

any time

Organizational Tools: Provide time-saving resources and web-applications to leverage teacher productivity.

Talking: Talk through lesson ideas or classroom issues with me.

Unpack Curriculum Standards: Assist in having a deeper understanding of district pacing and content standards. Help implement common core standards, portfolio use, school-wide read lessons, etc.

technology Integration

The purpose of instructional coaching is for educators to become architects of their own experiences and practice through reflective conversations. Though I am here for more than just help with technology integration, it is a large part of why I am here. Together, our goal is to improve student achievement by using the tools of technology when appropriate. Below are some examples of types of technology with which I can help you or for which I can help you find answers.
