

Earn College Credit and Placement

Most four year colleges in the US and in more than 60 other countries give students credit, advanced placement or both on the basis of AP Exam scores. By entering college with AP credits, you will have time to move into upper level courses, pursue a double major or even study abroad.

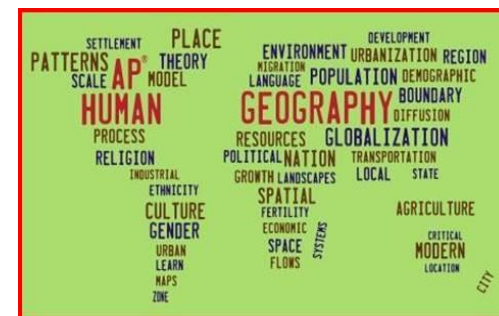

Get Noticed by Colleges

Save time and money by earning college credit while in high school. On average, students can save nearly \$1000 per course by taking and passing the AP Exam.

AP HUMAN GEOGRAPHY

A current event (not history) class

Have you ever wondered...

WHERE populations, culture, industry, and Agriculture, have spread and why?

WHY shapes of cities and state's boundaries change with human-environment interaction?

Segerstrom High School
