#### PRESENTATIONS

##### Update and Status of School Building Program

Mr. Jerry Hills, Construction Manager, presented an update and status report of the SAUSD building program. Various pictures were presented of completed and ongoing construction projects. He examined QZAB projects currently under construction, modernizations, and the relocation schedule. He reviewed expenditures for projects currently under construction at \$54,554,693 and completed projects at \$429,987,168, for a grand total of \$484,541,861.

Mr. Hills provided an overview of the Facilities Master Plan that included Critically Overcrowded Schools (COS). The proposed portable-to-permanent (P2P) 2-story buildings for Diamond, Greenville, Kennedy, Lowell, Madison, Martin, Santiago Elementaries and Carr Intermediate would replace approximately 160 portables. He stated that projects are predicated upon the passage of the General Obligation Bond going for a vote on June 3, 2008. Mr. Dixon, Assistant Superintendent, Facilities and Governmental Relations, stated that the COS opportunity expires on August 27, 2008, which means that the program must have Division of the State Architect approved plans to the State with matching funds by August 27<sup>th</sup>. He stated that the cost for the project is approximately \$40 million Measure G funds and \$40 million State matching funds.

Mr. Hills stated that on March 29, Valley High School had a Volunteer Day for students and staff members. Irvine Ranch Water District donated and helped to plant over 100 trees and plants at the school. Pictures of work in progress and completion of the big job were shown to the Board.

Summarized Data of Williams Settlement Third Quarterly Report

Dr. Olsky stated that, in order to meet the Williams Settlement Uniform Complaint reporting requirements, staff is required to report summarized data on the nature and resolution of all complaints on a quarterly basis to the County Superintendent and Governing Board of the District. There was one minor complaint that was resolved. The complaint was relevant to specific a physical condition at school sites that custodians were able to resolve.

PUBLIC HEARING

President Hernández declared the Public Hearing open to conduct a Public Hearing to receive comments regarding the proposed material revisions to the OCEAA Charter School, A California Public School. He asked those wishing to speak to come forward at that time.

Mr. Murrey, Associate Superintendent Business Services, stated that OCEAA representatives were in attendance to provide a PowerPoint presentation.

The Orange County Educational Arts Academy (OCEAA) is requesting approval of materials' revisions to its original Charter. The requested modifications to the Charter include revisions reflective of changes in charter school law and most notably, an extension of the original charter operating term from three years to five years. The current OCEAA charter expires on June 30, 2008.

Ms. Linda Hardman-Greene, Principal of OCEAA, introduced Mr. Jose Montaña, Vice Principal, who then updated the Board concerning OCEAA. He began by citing OCEAA's mission statement. He stated that the charter opened in August 2005 with 475 students. He reviewed demographics and stated that the projected number of students in the 2008-09 school year is 540. There are currently 49 students on the wait list for kindergarten, and 68 students on the wait list for 1<sup>st</sup>-8<sup>th</sup> grade. There are 23 teachers (100% NCLB compliant), one full-time and one part-time special education teacher, and two part-time instructional assistants. Mr. Montaña stated that 61% of teachers are bilingual and, to date, 23 support staff employees. He reviewed academic offerings and comparative API rankings.

Ms. Hardman-Greene provided information on annual yearly performance (AYP) for 2006-07 in language arts and mathematics, and reviewed APRENDA Spanish and mathematics scores for 2006-07 school year. She highlighted student achievement, talked about fiscal solvency success with a total operating budget of \$4.5 million, and current surplus for 2007-08 at \$750,000 with an 18% reserve. She stated that the projected surplus for 2008-09 is \$900,000.

Ms. Hardman-Greene stated that, although there are challenges with student population shifts and having a new principal each year for three years, the school has stayed true to the mission and their vision. She stated that they also have assessment and accountability by way of a data tracking system. She then provided information on OCEAA's goals in the area of assessment and accountability, professional development, leadership, and organization. Ms. Hardman-Greene talked about the drop in academic achievement scores; she stated that, having only two sets of data (two years), makes it difficult to make any generalizations. She stated that there were some issues immediately addressed, but to make broader generalizations, they will not know until they have additional data, based on best practices and research. She stated that because of the low number of years in the school's existence, it is difficult to track,

but they are continuing to look in all areas and administration and teachers are doing much in terms of staff development.

PUBLIC HEARING SPEAKERS

Board President Hernández asked that those wishing to address the Board in reference to the Orange County Education Arts Academy step to the podium as he called their names:

The following individuals addressed the Board to voice support for the Orange County Education Arts Academy and request, that the Board to approve revisions to the charter renewal, or rather than a two-year renewal, give a full five-year renewal.

Lee Rogers  
Noah Rogers  
Norman Rogers  
Krista Abramson  
Kristin Collins  
Kimberly Barraza Lyons  
Elizabeth Bausman

Ms. Mavis Mitchell, Charter Schools Financial Coordinator, explained that OCEAA is mid-way through its third year renewal. The reason for not extending to a five-year renewal is that criteria described in the Education Code states that academic achievement is tracked over a period of three years. If a Charter shows a drop in academic achievement, it cannot be renewed for a five-year term. She explained that at the end of two years, charters must meet the academic baseline, continue at the baseline, or exceed that baseline. Unfortunately OCEAA experienced a drop in the baseline, disqualifying them for a five-year renewal. Ms. Mitchell stated that charter schools may initially be granted a three or five-year renewal.

Ms. Mitchell stated that SAUSD's administrative staff recommends that the material revisions to the charter requested by OCEAA, including extension of the term of the charter for an additional two years, be approved.

Summary of OCEAA Charter Material Revisions

Board members requested clearer expectations for OCEAA after two years, and for staff to expedite a timeline and firm up ideas as to what the District's desire is for OCEAA.

Mr. Hernández stated that hearing no further comments regarding the proposed material revisions to OCEAA, A California Public School, he then declared the hearing closed.
