## SUPERINTENDENT'S REPORT

Superintendent Almendarez reminded our families that SAUSD is providing free meals this summer for all children. Anyone age eighteen and under can receive a free breakfast and/or lunch at one of fifty-six sites across SAUSD. This service is being offered through July 20. The community was encouraged to visit [www.sausd.us](http://www.sausd.us) or to follow SAUSD on social media for schedules, locations, and other information. Superintendent stated that on Thursday, June 29, 2023, SAUSD will host a preschool information and registration fair at the Santa Ana Zoo. The free resource fair is scheduled from 10 am to 2 pm and is to include preschool application assistance, games and activities, and free giveaways for children ages three to five. To learn more about the SAUSD's robust Early Childhood Education program, the community was encouraged to attend the fair. Superintendent also wanted to invite our community to the following SAUSD student summer musicals: Performances of the Addams Family to take place on July 6th & 7th at Santa Ana High School and Performances of Peter Pan Jr. to be shown on July 6, 7 and 8 at Segerstrom High School. For more times and other information, the community was advised to visit [www.sausd.us](http://www.sausd.us) and follow SAUSD on social media. Finally, Superintendent wanted to congratulate our SAUSD Speech and Debate Team for its recent performance in the 2023 National Speech and Debate Association National Championships. Thirteen students from five high schools represented SAUSD in a field of more than 6,000 in the competition in Phoenix, Arizona where several students have placed in top spots across multiple categories. SAUSD's Speech and Debate team once again showed the country how our program is a national powerhouse. The Superintendent thanked all the coaches and other supporting staff for their work to support our students.

RESOLUTION NO. 22/23-3531  
BOARD OF EDUCATION  
SANTA ANA UNIFIED SCHOOL DISTRICT  
ORANGE COUNTY, CALIFORNIA

SEVENTH AMENDMENT TO STANDARDIZE DISTRICT FACILITY COMPONENTS  
FOR THE DESIGNATION OF  
SPECIFIC MATERIAL(S), PRODUCT(S), THING(S), OR SERVICE(S) ON  
PUBLIC WORKS PROJECTS, PURSUANT  
TO PUBLIC CONTRACT CODE SECTION 3400(c) (2)

WHEREAS, pursuant to California Public Contract Code Section 3400 ("PCC § 3400") and other applicable law, the District wishes to, in specific instances, list and/or designate in its bids or requests for proposals on its public works projects, specific material(s), product(s), thing(s), or service(s);

WHEREAS, PCC § 3400 (c)(2) provides that the District may specify particular material(s), product(s), thing(s), or service(s) in its specifications for bids in connection with the construction, alteration, or repair of public works upon a finding by the District Board that particular material(s), product(s), thing(s), or service(s) are listed for the purpose of matching "other products in use on a particular public improvement either completed or in the course of completion,"

WHEREAS, on the District's public works projects, the District desires to list the material(s), product(s), thing(s), or service(s) listed on the attached list (**Exhibit "A"**) as the only acceptable material(s), product(s), thing(s), or service(s) for use on the District's construction projects, because those material(s), product(s), thing(s), or service(s) "match other product(s) in use on other District public improvement(s) either completed or in the course of completion" (PCC § 3400 (c)(2)),

WHEREAS, although PCC § 3400 (c)(2) does not require the Board to make specific findings as to why it wishes to match other products in use, the District believes this action is desirable to, among other reasons, and to the extent applicable to specific material(s), product(s), thing(s), or service(s), because:

- The District has already incurred costs to train its employees to service and maintain specific current product(s) and system(s) throughout District campuses.
- The ongoing maintenance, repair, and other work that District staff and/or service providers will have to perform on those product(s) or system(s) will be simplified, more efficient, and less costly if those persons do not have to service different and varied product(s) and system(s).
- The warranties and guarantees for product(s) and system(s) will be easier to coordinate, track, and call upon in the years to come if they are with the same manufacturers/vendors of the particular product(s) or system(s).
- It would be beneficial for the entire District to reduce District costs by implementing uniform system(s) and installing uniform product(s) throughout the District, facilitating maintenance, engineering, and overall reliability.
- The District anticipates future construction, alteration, modernization of existing school sites to, among other things, replace and/or upgrade system(s) at those sites.

• It would be beneficial to the District to have and use uniform parts and materials throughout the system(s) in use at its sites.

**WHEREAS**, the District will endeavor to list, whenever feasible, more than one product or system when more than one product or system is acceptable and has already been used at improvement(s) either completed or in the course of completion and the above conditions are sufficiently satisfied.

**NOW, THEREFORE, THE BOARD OF EDUCATION OF THE SANTA ANA UNIFIED SCHOOL DISTRICT DOES HEREBY RESOLVE, DETERMINE AND ORDER AS FOLLOWS:**

1. That the foregoing recitals are true.
2. The District has already incurred costs to train its employees to service and maintain specific current product(s) and system(s) throughout District campuses.
3. The ongoing maintenance, repair, and other work that District staff and/or service providers will have to perform on those product(s) or system(s) will be simplified, more efficient, and less costly if those persons do not have to service different and varied product(s) and system(s).
4. The warranties and guarantees for product(s) and system(s) will be easier to coordinate, track, and call upon in the years to come if they are with the same manufacturers / vendors of the particular product(s) or system(s).
5. It would be beneficial for the entire District to reduce District costs by implementing uniform system(s) and installing uniform product(s) throughout the District, facilitating maintenance, engineering, and overall reliability.
6. The District anticipates future construction, alteration, modernization of existing school sites to, among other things, replace and/or upgrade system(s) at those sites.
7. It would be beneficial to the District to have and use uniform parts and materials throughout the system(s) in use at its sites.
8. The District will endeavor to list, whenever feasible, more than one product or system when more than one product or system is acceptable and has already been used at improvement(s) either completed or in the course of completion and the above conditions are sufficiently satisfied.
9. That the material(s), product(s), thing(s), or service(s) listed on **Exhibit "A"** are the only acceptable material(s), product(s), thing(s), or service(s) for use on the District's public works projects, because those material(s), product(s), thing(s), or service(s) match other product(s) in use on other District public improvement(s) either completed or in the course of completion.
10. That the District shall list in its invitation(s) to bid or other contract solicitations for the District's public works projects, the material(s), product(s), thing(s), or service(s) listed on **Exhibit "A"** as the only acceptable material(s), product(s), thing(s), or service(s) for use on the District's public works projects.

11. That the District's Superintendent, or the Superintendent's designee, is authorized pursuant to this Resolution to take any action that is necessary to complete the procedures necessary to carry out, give effect to, and comply with the terms and intent of this Resolution.

Exhibit "A"

**A. Fire detection and alarm system(s) manufactured by the following manufacture(s):**

- Notifier (located at approximately 70% District sites currently)
- Silent Knight (located at approximately 10% District sites currently)

These systems are integral safety components at District sites. In addition to the basis in the Resolution for determining that the Board wishes to match new fire detection and alarm systems to existing systems already in use, the District is endeavoring to better coordinate the training, maintenance, and repair of these systems throughout the District. The ever-increasing cost and coordination of varied systems with a limited maintenance personnel staff and a limited budget for outside vendors, requires the District to limit variance in these types of systems to facilitate more control and cost containment in keeping those systems operational.

**B. Locksets and Cylinders manufactured by the following manufacture(s):**

- Schlage (located at approximately 100% District sites currently)

These systems are integral safety components at District sites. In addition to the basis in the Resolution for determining that the Board wishes to match new lock systems to existing systems already in use, the District is endeavoring to facilitate better control over replacement parts, the "re-keying" of locks, and the replacement of lost or stolen keys.

**C. Heating, Ventilation and Air-Conditioning Systems manufactured by the following manufacture(s):**

- York (located at approximately 20% District sites currently)
- Carrier (located approximately 30% District sites currently)

The District is endeavoring to better coordinate the training, maintenance, and repair of these systems throughout the District. The ever-increasing cost and coordination of varied systems with a limited maintenance personnel staff and a limited budget for outside vendors, requires the District to limit variance in these types of systems to facilitate more control and cost containment in keeping those systems operational.

**D. Heating, Ventilation and Air-Conditioning Control Systems manufactured by the following manufacture(s):**

- Pelican Wireless Systems (located at approximately 30% District sites currently)

These systems align with an effort to better coordinate the overall maintenance, repair and energy management of HVAC systems throughout the District. The coordination of various control systems for HVAC equipment management with a limited maintenance personnel staff require the District to limit variance to facilitate more control and cost containment in keeping those systems operational.

**E. Intrusion Detection Systems manufactured by the following manufacture(s):**

- Digital Monitoring Products (DMP) (located at approximately 30% District sites currently)

The District has DMP as an integral safety component for our intrusion detection systems. The Digital Monitoring Products are a critical component that completes the software requirements for our entire monitoring system that our Police Department has chosen to provide the safest campuses possible. There are multiple dealers that can provide DMP panels and programming as well as our staff has received training in these software programs.

**F. Intercom Paging System manufactured by the following manufacture(s) :**

- Bogen (located at approximately 10% District sites currently)
- ICS Rauland (located at approximately 80% District sites currently)

These systems fall in line within endeavor to better coordinate the training, maintenance, and repair of these systems throughout the District. - Sloan (located at approximately 80% District sites currently)
- Zurn (located at approximately 20% District sites currently)

Plumbing fixtures and systems become very unique and system coordinated when they were late to the commercial industry. It is impossible to inventory the various numbers of parts for the vast system differences. Standardization of the systems will help alleviate over stocked items, obsolete parts, and allow us the ability to maintain a reasonable inventory. Our staff members have had numerous hours of training on different components such as valves, cartridge replacement, re-built kits, pressure setting etc.

**H. Network system(s) by the following manufacture(s) :**

- Cisco (located at approximately 100% District sites currently)

In addition to the basis in the Resolution for determining that the Board wishes to align facilities efforts with educational goals, simplify and reuse engineering services to scale, make smart decisions to maximize limited resources, and consolidate infrastructure that results in maintenance and management savings, the District is endeavoring to better coordinate the training, maintenance, and repair of these systems throughout the District. The ever-increasing cost and coordination of varied systems with a limited maintenance and technical personnel staff and a limited budget for outside vendors, requires the District to limit

variance in these types of systems to facilitate more control and cost containment in keeping those systems operational.

- Niagara AXP (located at approximately 20% District sites currently)

These systems are integral energy saving components at District sites. In addition to the basis in the Resolution for determining that the Board wishes to match BAS & EMS systems to existing systems already in use, the District is endeavoring to better coordinate the training, maintenance, and repair of these systems throughout the District. The ever-increasing cost and coordination of varied systems with a limited maintenance personnel staff and a limited budget for outside vendors, requires the District to limit variance in these types of systems to facilitate more control and cost containment in keeping those systems operational. Providing better energy controls to the district will enhance the energy saving program and provide improved services to our students.

**N. Marquee Message Boards by the following manufacturer (s):**

- Daktronics (located at approximately 50% District sites currently)

The District endeavors to implement one system of electronic message boards to be controlled by each school site or from the District Office. Standardization with one technology manufacturer enables emergency communication to be sent throughout the District more effectively, especially in the case of an emergency message. The implementation of one system will also facilitate cost control by minimizing training, maintenance and inventory associated with the use of multiple manufacturers.

**BOARD POLICY NO: 6158**

**EFFECTIVE: 06/27/2023**

**SUBJECT: Independent Study**

**CATEGORY: Instruction**

**RESPONSIBLE OFFICE(S): Educational Services, K-12 Teaching and Learning**

## **SCOPE:**

The Board of Education authorizes independent study programs, including a course-based independent study program, as an optional alternative instructional strategy for eligible students whose needs may be best met through study outside of the traditional classroom setting.

## **POLICY:**

The Governing Board authorizes independent study as an optional alternative instructional strategy by which students in grades K-12 and adult education may reach curriculum objectives and fulfill graduation requirements. Independent study shall offer a means of individualizing the educational plan for students whose needs may be met best through study outside of the regular classroom setting. (cg. 5147-Dropout Prevention)

The District's independent study option shall be substantially equivalent in quality and quantity to classroom instruction, thus enabling students enrolled in independent study to complete the District's adopted course of study within the customary time frame. Students in independent study shall have access to the same services and resources as is available to other students in the school. (cr. 6143 - Courses of Study) (cf. 6200 - Adult Education)

The Superintendent or designee shall determine that the prospective independent study student understands and is prepared to meet the District's requirements for independent study. Independent study entails a commitment by both the parent/guardian and the student. As the student gets older, he/she assumes a greater portion of the responsibility involved. Independent study may be offered only to students who can achieve in this program as well as or better than they would in the regular classroom.

The Superintendent or designee shall ensure that a written independent study agreement, as prescribed by law, exists for each participating student (Education Code 51747)

The Board recognizes that independent study may be used as an option to encourage students to remain in school. Teachers should carefully set the duration of independent study assignments, within the limits specified by the Board to help identify students falling behind in their work or in danger of failing or dropping out of school.

Because excessive leniency in the duration of independent study assignments may result in a student falling behind peers and increase the risk of dropping out of school, independent study assignments shall be completed no more than one week after assigned for all grade levels and types of programs. However, when necessary, based on the specific circumstances of the student's approved program, the Superintendent or designee may allow for a longer period of time between the date an assignment is made and when it is due, up to the termination date of the agreement.

1. For students in grades K-3: 1 week
2. For students in grades 4-8: 2 weeks
3. For students in grades 9-12, continuation and adult education: 3 weeks

The Superintendent or designee shall develop a plan to transition students whose families wish to return to in-person instruction from independent study expeditiously, and, in no case, later than five (5) instructional days. This requirement only applies to students participating in an independent study program for fifteen (15) school days or more. (EC 51747)

The Superintendent or designee shall ensure that a written master agreement exists for each participating student as prescribed by law no later than thirty (30) days after the first day of instruction. (EC 51747, 51749.5)

The district shall provide written notice to the parents/guardians of all enrolled students of the option to enroll their child in in-person instruction or independent study during the 2022- 23 school year and thereafter. This notice shall be posted on the district's website, and shall include, at a minimum, information about the right to request a student-parent-educator conference before enrollment, student rights regarding procedures for enrolling, disenrolling, and re enrolling in independent study, and the instructional time, including synchronous and asynchronous learning, that a student will have access to as part of independent study. (EC 51747)

A student's participation in independent study shall be voluntary. Students participating in independent study shall have the right, at any time, to enter or return to the regular classroom mode of instruction. (EC 51747)

Students in independent study shall have access to the same services and resources that are available to other students in the school and shall have equal rights and privileges.

The district shall not provide independent study students and their parents/guardians with funds or items of value that are not provided for other students and their parents/guardians. (EC 46300.6, 51747.3)

The Superintendent or designee shall determine that the prospective Independent Study student understands and is prepared to meet the district's requirements for Independent Study. No student with exceptional needs receiving special education services may participate in any Independent Study services or program unless authorized by the Individualized Educational Plan (IEP). assignments shall be no more than one week for all grade levels and types of programs. However, when necessary, based on the specific circumstances of the student's approved program, the Superintendent or designee may allow for a longer period of time between the date an assignment is made and when it is due, up to the termination date of the agreement.

An evaluation shall be conducted to determine whether it is in a student's best interest to remain in independent study whenever the student misses three assignments and/or two class meetings, unless the student's written agreement specifies a lower or higher number of missed assignments based on the nature of the assignments, the total number of assignments, and/or other unique circumstances.

## Student-Teacher Conferences

Supervising teachers should establish an appropriate schedule for student-teacher conferences in order to help identify students falling behind in their work or in danger of failing or dropping out of school. Teachers are expected to monitor student progress and work closely with each student to determine the amount and type of contact needed for the student to be successful in the program. Missing appointments with the supervising teacher without valid reasons may trigger an evaluation to determine whether the student should remain in independent study.

## Independent Study

When any student fails to complete consecutive independent study assignments, the Superintendent or designee shall conduct an evaluation to determine whether it is in the student's best interest to remain in independent study. Evaluation findings shall be kept in the student's permanent record. (cf. 5125 - Student Records)

The Superintendent or designee shall annually report to the Board the number of students engaged in independent study, the ADA generated, the quality of these students' work as measured by standard indicators, and the number and proportion of independent study students who graduate or successfully complete independent study.

## Homeschooling Through Independent Study

The Superintendent or designee shall encourage parents/guardians desiring to teach their children at home to enroll their children in independent study. Such enrollment allows continued contact and cooperation between the school system and home-based students.

## **DESIRED OUTCOME:**

This revised independent study Board policy provides an optional alternative instructional strategy for eligible students whose needs may be best met through study outside of the traditional classroom setting and expands independent study options to include a course-based independent study program.
