

FACE Google Site: Digital Tools **Updated 8/13/2020**

The purpose of this document is to share the digital tools that SAUSD FACE has either made or found for support in access and digital literacy of all SAUSD families. These links will be published on a Google Site (TBA) that will be consistently updated with tools and resources as they become available.

SAUSD FACE's area of focus is around email, Aeries and Parent Square. Martha Rivera is also working with TIS to further develop digital tools to provide additional digital support of families and students around other technology platforms.

If you have any questions, please do not hesitate to reach out. Thank you!
