High School Students in Engineering and Computer Science

July 16 - July 28, 2017

Application Deadline: Monday, May 1st at 11:59 PM PST

The University of California, Irvine, is pleased to offer you the ASPIRE Summer Program at UCI! With top of the line facilities and distinguished faculty from the Samueli School of Engineering and Donald Bren School of Information and Computer Sciences, this 2–week program gives high school students hands on experience with a multitude of engineering and computer science disciplines, including app development, programming, and engineering design.

PROGRAM BENEFITS

- 2-week residential program
- Hands-on training in coding, designing, and prototype testing
- Create your own product
- UCI faculty and student mentors
- Guest speakers & lab tours
- Advising and support to prepare for college admissions

*COST: $2,500

- Program cost includes: housing, meals, transportation for program activities, supplies, materials, t-shirt, and certificate of completion
- Scholarships available based on financial need

Partial and full scholarships available to cover cost.

ELIGIBILITY

- Current high school sophomore or junior
- 3.0 minimum GPA (unweighted)
- Available for full program, including housing on campus at UCI
- Thirst for knowledge–no experience needed!
