

Lemon/Crab

Assignment: You will duplicate a lemon on the plate to create a nice looking picture. You have to select the lemon and place it around the plate so it looks like a lot of lemons.

Getting Started:

** Part 1:*

1. Open the file "LEMON.JPG" in Photoshop
2. Copy the crab: Select the part of the crab you want the lemons to go under using the "Lasso" tool. 
 1. Remember that holding the shift key will **add** to the selection and holding the option key will **subtract** from the selection.
3. Copy and past the selection: Edit > Copy, Edit > Paste (this puts part of the crab on a new layer above the background so it will hide the lemons)
 1. Repeat the same procedure for the other side of the crab and add lemonsGet the file LEMON.JPG off the blog by clicking on it

** Part 2:*

4. Select the lemon:
 1. Use the magic wand  (hold the shift key while you click on the lemon) **OR**
 2. Use the circular marquee tool.  Drag a circle around the lemon (hold the space bar to let you move the circle around without changing it's size.)
5. Copy the lemon: Once you have the lemon selected, you are going to make copies of it (duplicate) and place them around the edge of the plate:
 1. Use the "Move" tool 
 2. Hold the "Command" and "Option" key down while you click and move the lemon.
 3. Place a row of lemons part way around the crab.

Checklist:

- _____ You have a good selection of the lemon (it's nice and round)
- _____ You have a good selection of the crab
- _____ The lemons look like they are under the crab
