Melon Head

You are going to create a “melon head” man by using pictures of different kinds of food.

1. Create a new file in photoshop: File > New
 1. Give it the following settings:
height: 5 inches width: 5 inches resolution: 72
2. Open the melon picture: File > Open > your name > Technology Class > Melon
3. Select the melon:
 1. Use the magic wand to select the white area around the melon.
 2. Go to “Select” > “Inverse”
4. Copy the melon: Edit > Copy
5. Click on the new file (the blank one) and paste: Edit > Paste
6. ** Make sure you have the “Layers” window open **
 1. Window > Layers
7. Label each layer as you go: double click on the layer name, type in the name, and then hit “Return”.
8. Continue with the different parts of the melon
9. To move things around, use the move tool
10. To reverse the eyebrow, select it (step 3) then reverse it:
 1. Edit > Transform > Flip Horizontal
 2. Then you can copy and paste it into the “melon head” picture
11. For the mouth, you must erase part of the grapefruit slice to make him look “happy”
12. To Save: File > Save:
13. Close all the other pictures and DON'T SAVE them.

Check list

14. _____ Is the size of the picture right?
15. _____ Are the eyebrows facing opposite directions?
16. _____ Are the layers in the right order (the hat is over the melon, etc.)
17. _____ Are the layers named?
