# Saving Fusion 360 files as .stl files

1. Make sure the "Browser" window is open: View > Show Browser
2. "Right" click on the top box.
3. Go down and click on "Save As STL"
4. Click and drag a rectangle "around" the whole nametag so that it is "selected"
5. Click "OK" at the bottom right
6. Save the file to your desktop (make sure the file name ends in .stl

# Email me an attachment

1. Open your gmail account and "compose" a new email:

   To: Mrpapkesclass@gmail.com
   Subject: Nametag

   Mr. Papke,

   Here is my name tag.  I would like it in blue if possible.

   Thank you,

2. To attach the file, click on the paper clip and then navigate to the file
