

Wired is a monthly American magazine, published in print and online editions, that focuses on how emerging technologies affect culture, the economy, and politics. Owned by Condé Nast, it is headquartered in San Francisco, California, and has been in publication since March/April 1993. Several spin-offs have been launched, including Wired UK, Wired Italia, Wired Japan, and Wired Germany. Condé Nast's parent company Advance Publications is also the major shareholder of Reddit, an internet information conglomeration website.

This smart case gives you a longer battery life using solar. The Helio Tech Solar-Sound™ is a portable speaker that brings the party with you anywhere you go.
