HELIOCASE

This Smart Case gives you longer battery life using solar energy or the option of using the cable your phone uses. Charge your Phone and Helio Smart Case simultaneously for increased time and even longer audio and video playback.

HelioTech offers it's services for teens to young adults who are in the middle to upper class. People who are reliant on their personal devices and are early adapters to technology and are always on the go are also a major target for us.

HelioTech is a solar powered company that uses all natural renewable energy for its products. HelioTech is a good fit for frequent phone users who always seem to find themselves with low battery. Our mission is to develop innovative, convenient, and eco-friendly products. Our products allow customers to charge their devices while on the go.

SOLSOUND

Whether you are at the beach or sitting by the pool, this solar charging speaker works with your smartphone allowing bluetooth connection to your personal music. The speaker has two charging ports so you can charge your portable devices at the same time you are enjoying the sun.
