# What does it mean to be CEO ?

Our chief Executive officer Sergio Garcia shares some thoughts on his role as the company leader

Being CEO doesn't only mean being in charge of everyone and everything, it means understanding people to try building a relationship with all employees. I must be helpful;

**"I am a friend first, and a boss second. And that's what important in the workplace."**

thinking out of the box to make people's jobs easier. Our company works together as a team striving for the

same goal. Respect isn't given it is earned. As for the company itself, I hope it stands out to other successful technological companies out there. PoweredCloud always keep it 100.

Sergio Garcia  
CEO of PowerCloud

## Operation Christmas Child...

*Bringing Joy and Hope to kids of the world, box by box*

It's that special time of the year where we go shopping for Christmas presents. Not many people tend to get gifts for Christmas but here at PowerCloud we want to start changing that. Operation Christmas Child is a non-profit organization

that lets us fulfill our goal. This organization lets kids that do not have the same opportunities as us from all around the world receive gifts that are needed for them. These kids have less opportunities than us and we want to give back. The ages that we give back to kids that are 3-14. In the shoeboxes we include crayons, clothing, blankets, personal hygiene, toys, we write letters and many more. We want to help change kids life little by little.

# Employees Talk About Their Experience at Alpine

## Climbing Trees and Bonding Teams

“Alpine gave me the boost of confidence that I needed to become a more daring” - Melanie Carranza

“It was so scary at the moment of climbing those terrifying trees but I am so glad I did and I would so do it again!” -Alexis Rangel

“Alpine gave the opportunity to try something out of my comfort zone” - Sergio Garcia

“I am so glad that I went to Alpine. Never would I have thought that I would climb a tree 100 feet high”- Edgar Marquez

“Going on this trip and working on team work was the best part besides the venue. It taught us Power Cloud on how to work as a team” - Richey Vera

The PowerCloud employees attended a company building workshop in Lake Arrowhead at Alpine Conference Center on October 24, 2017. Alpine taught us all about teamwork, setting goals, overcoming challenges, and trust. We participated in many different types of activities that require lots of focus and energy. Most activities had to do with heights and close physical contact with other employees. We faced some very tough tasks to test our abilities, and to help us step out of our comfort zone. This workshop got the PowerCloud employees to work together to accomplish certain tasks. The Alpine instructors coached us on communicating, listening, sharing ideas with each other to come up with the best outcome. The whole point of this trip was to train us on working together as a team.

# Employee of the MONTH

Lizzy Cardenas is an associate in the Arts and Publications department. Coming back from our first trade show which took place in San Diego this week, her department received two awards in the following: 1st place in Branding and 2nd place for Sales Material. When Lizzy was asked about the trade show's outcome she stated excitedly, "I'm so relieved that my hard work and long days after school have paid off, I can't wait to keep improving and bettering the company." We

**Lizzy Cardenas**  
Art Associate

appreciate her hard work and can't wait to see what she brings next to PowerCloud.
