1. Update the data title and years along the side
2. Add all the sales for each year in the **Totals Column**
3. Create a **Column chart** that charts the Q1-Q4 titles and sales numbers for all the years in the table
4. Click on the chart and go up to the top menu and under Chart, select **Source Data**, select the series data "series1" and change the name to 2012, repeat this for each series until you have all the years added
5. While the chart is selected, explore the format in the purple tabs above your sheet and try to find out how to change the bar colors to match the colors above.
