## LOVE SIGNUM

Since the beginning Signum has always had the same mission: to become a leader in the global off grid communications industry. This means that we have to work hard to achieve this goal because we're only a small company as of right now, but we know that with hard work we can accomplish great things. We as a team know that we have to work together in order to get stuff done. As February passes by we should show our love and appreciation to the ones we care about, that includes the people we get to work with. Here at Signum we all love and get along with each other because we're a family.

# LOVING THE OFFICE

## SOME TECHNIQUES TO HELP YOU FEEL MORE AT HOME

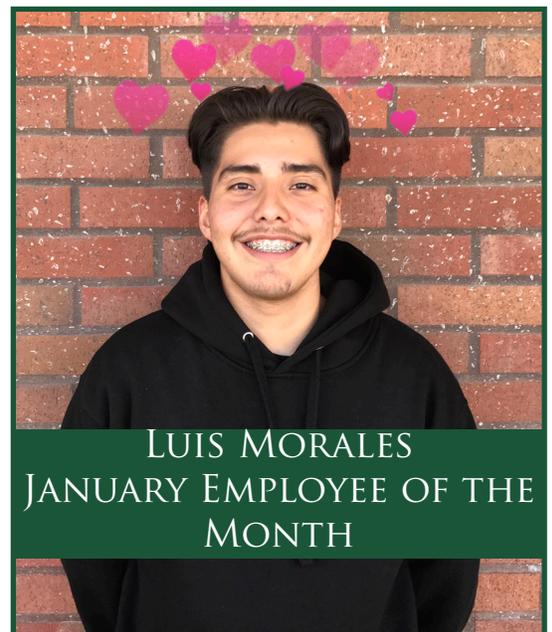

Working in an office can be a bit difficult to some people but we're here to give you some tips on how to make your day more enjoyable for you and your co-workers. It's always good to have something to look forward to, such as a lunch that you brought from home. It's also good to have friends in the office but try to plan something outside of work so you and your friends can enjoy time outside of work. These things make going to work more enjoyable and help you pass the day!

## EMPLOYEE OF THE MONTH

### CELEBRATING OUR BEST OF JANUARY

Last month it was announced that the employee of the month was Luis Morales who is currently working in the Accounting department. He received this award because during the month of January, he worked really hard to help improve our company. His help on our accounting has helped Signum win many awards because of his hard work. Luis is very grateful about receiving this award and said, "I really appreciate this employee of the month award. I'm really proud of myself and I thank Grecia (Vice President of human Resources) for choosing me. I will continue to do my best for this company and keep the hard work up to be able to bring this company up to its full potential. Thank You!"

# PRODUCT OF THE MONTH

## GETTING TO KNOW OUR SIGNUM WATCHES

Our watches have the ability to request or send location information with any other product that has our products, if desired by users. This service allows users to locate friends/family members through our detailed offline available maps. The watches work in an off-grid environment through proprietary innovative communication technology to provide a messaging delivery system. This system transmits and receives encrypted text by utilizing long-range radio frequencies. The watches translate between different languages when paired with their phone via bluetooth. On the travel you can communicate with anyone, anywhere, in any language. This will help you get through the days in a foreign location when you have no service.

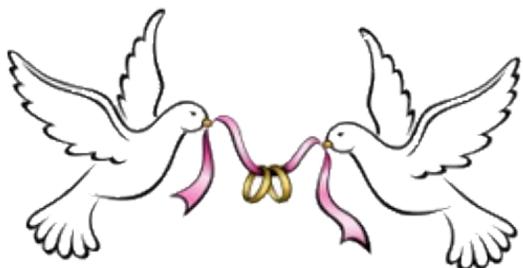

VULTRA WATCH

## LOVE IS IN THE AIR

### LOOKING BACK AT OUR DECEMBER WEDDINGS

In the month of December Signum had love in the air, three of our employees got married! Adrianna Noyola, the V.P. of Arts and Publications got married to Luis Sanchez, an associate from Arts and Publications. Pricila Medina, our admin, got married to Johnathan Ramirez from Taste of the World. We came together to watch the lovely ceremony. We hope the best of the newlyweds.

Left to Right: Daniela Barrios, Ariana Amezcua, Johnathan Ramirez, Pricila Medina, Fernando Hernandez, Yuridia Figueroa, Adrianna Noyola, Luis Sanchez
