# About Signum

**S**ignal in Latin translates to Signum. We're a company in which our idea drives from providing an essence of signal for communication.

**O**ur company goal: to provide every customer the optimal benefit of having us help them in an event where there is no available communication resource. Signum products will decrease our dependency on the "grid" for communication.

## Product Description

**OFF GRID COMMUNICATION:** This watch uses an innovative communication technology to provide a messaging delivery system. This system transmits and receives encrypted text by utilizing long-range radio frequencies (151-154 MHz) that use your phone as a radio transmitter/receiver via bluetooth pairing.

**GPS & LOCATION:** This product has the ability to request or send location information with any other person that has our products if desired by users. This service allows users to locate friends/family members through our detailed offline available maps.

**TRANSLATION:** This watch translate between different languages when paired with their phone via blue tooth or on the product itself.
