Action Item: 8.0

ADOPTION OF RESOLUTION NO. 09/10-2813 - USE FLEXIBILITY PROVISION FOR TIER III CATEGORICAL PROGRAM FUNDS FOR 2009-10

In compliance with Education Code Section 42605(c) (2), the District must conduct a Public hearing. The flexibility provision allows the District to utilize Tier III program funding for any educational purpose including general fund expenditures per an attached listing. Mr. Murrey stated that the Orange County Department of Education, recently issued guidance advising districts to hold a public hearing and obtain Board approval to use the flexibility provision on an annual basis.

It was moved by Mr. Hernandez, seconded by Mr. Richardson, and carried 3-2, Mr. Palacio and Mr. Reyna dissenting, to adopt Resolution No. 09/10 2813 - to use flexibility provision for Tier III Categorical Program Funds for 2009-10 for any educational purpose as approved by the Board of Education.

PRESENTATIONS

#1 Presentation - Budget Update

Mr. Murrey provided an update on the current State budget and its effects to the SAUSD. He stated that the State budget is still unstable and 2009-10 is expected to bring the same. He showed a chart of capital gains and corporate income taxes that California relies on which show instability. He discussed the report by Employment Development Department, showing 39,300 jobs lost in

September and the Department of Finance report that shows revenues short of projections by \$810 million. Mr. Murrey stated that School Services of California reported that the State economy is not expected to recover to 2007 levels until 2015.

Mr. Murrey stated that budget reductions are needed to be identified by December 15, 2009 for the first Financial Interim Report, with the prospect of new mid-year State budget cuts to education expected. He reviewed \$82 million in State cash deferrals which means that the State will pay the district late even though there are obligations such as payroll, vendor invoices that must be paid on a timely basis. He discussed American Recovery and Reinvestment Act (AARA) monies and how special education AARA funds have not been received. \$1.1 million in July, August, September and \$5.7 n October were delayed at the State with no revised timeline for distribution. Furthermore, \$6.2 million in October for Title 1 has been delayed at the State with a revised timeline for distributions and must be used over two years.

Mr. Murrey called upon Mr. Darren Dang, Director, Business Services, with the Orange County Department of Education (OCDE). Mr. Dang reviewed the 2008-09 unaudited actuals and addressed questions from the Board. He then stated that at the October 13, 2009, Board meeting, the OCDE was asked to review the District's \$93 million Ending Fund Balance based on variations in figures between the SAUSD and SAEA. Dr. Benkert, Associate Superintendent, Business Services, agreed to the study. Mr. Dang stated that based upon OCDE's review of the ending fund figures, the SAUSD was accurate and he found no discrepancies. He stated that the way SAEA and SAUSD calculate figures and the time in which calculations were completed would allow for differences. He explained that it is similar to a general checking account. When an individual is paid there is money in the account and while expenditures are made it reduces monies on a daily basis and depending on the time of month those calculations are made, it will throw off figures and that is what occurred.

PUBLIC PRESENTATIONS

President Hernández asked those members of the community who wished to address the Board to step forward as he called their names.

The following individuals addressed the Board regarding the SAUSD budget, to reconsider returning rified teachers, Class Size Reduction, School Site Council's responsibilities, or to voice another view on the budget balances.

#3 Presentation - Career Technical Education

Ms. Patricia Carter, Director, Career Development/ROP, presented information about the Career Technical Education (CTE) program. She described CTE as a program that prepares students for their future workforce. She stated last year there were 8,742 students in the CTE program and today there are 8,240 or 20% less. Due to recent legislation, the program has changed its focus to high school students. And because of the State's budget, CTE had a reduction of \$1 million this year. The CTE umbrella covers several programs, the largest being ROP. Classes are offered at all six comprehensive high schools, Chavez High, and the Ritchie site. Other areas of CTE programs are Career Partnership Academies, the Education Academy at Century High, e-Business Academy at Century High, and the Global Business Academy at Valley High School.

Another program is the Carl D. Perkins Career and Technical Education Improvement Act, which is a federal grant focused on improvement and integration of CTE. It serves special populations, which are students with disabilities, English Language Learners, economically disadvantaged, and single parents. Another component under CTE is High School, Inc. at Valley High School, a formal presentation will come in December. She stated that an award was received for over \$4 million for facilities at Valley High School. Additionally, a new Career Academy Scholars program began at Valley, Santa Ana, and Century High Schools this year which is in collaboration with Santa Ana College. She then reviewed the CTE curriculum and stated that new classes include Art of Animation, Sports Medicine classes, and they are currently awaiting approval for a new course of Engineering & Design.
