New California State legislation passed recently requires that the bottom 5% of the persistently low-achieving schools in California be identified to implement reforms for the 2010-11 school year. Three SAUSD schools including Willard Intermediate and Century and Saddleback High Schools were among the 188 persistently lowest achieving schools. SAUSD is committed to collaborating with the State Department of Education, O.C. Department of Education, SAUSD instructional leadership team, teachers' union, faculty, students, and parents to select an intervention model by June 1, 2010, to help guide school improvements. SAUSD previously began implementing requirements for transformation and turnaround, including the hiring of new principals, ongoing staff development, and the continuous use of student achievement data. Ms. Russo stated that this designation would bring additional funds to enhance academic efforts. Four intervention models below will be explored before a recommended course of action will be brought forth for Board approval.

- Turnaround Model: replace principal and up to half of instructional staff
- Transformational Model: replace principal and increase instructional time
- Restart Model: close and reopen under a charter school operator

DISCUSSION

Principal Input on Santa Ana Building Healthy Communities and Promise Neighborhoods Initiative

Principals were present to provide input about two community grants, Santa Ana Building Healthy Communities and the Promise Neighborhoods Initiative. Principals were instrumental in voicing their support of both programs for school communities. Principals collaborated and came up with support systems they would like developed at their schools that included family resource centers, enrichment recreation, medical resources, job centers for parents, supervised playgrounds, transportation to services, nutrition and basic needs. Principals' Mr. Skelly, Ms. Infante, Ms. Landsiedel, and Ms. Solomon elaborated on each component.

The Building Healthy Communities is a 10-year plan designed to improve physical, social, and economic services that support healthy living and healthy behaviors in California to a targeted area of the City. There are over 700 stakeholders in the Santa Ana Building Healthy Communities Initiative that consists of residents, youth, and approximately 40 organizations. The plan must be submitted by May 15, 2010.

Promise Neighborhoods Initiative, is a \$210 million competitive federal grant. It is a new major community-focused initiative to improve academic achievement and life outcomes in high-poverty areas. The program aims to improve college-going rates by combining a rigorous prenatal to college education with supportive services from early childhood education to after-school activities to college counseling. The goal is for each grantee to attain a dramatic increase in the number of students who successfully enter college.

Board members provided input and asked staff to share details with the Board before submission. And, asked that the Board be invited to planning meetings.

Education Code Section 42130 requires that certification by the governing board be submitted twice annually confirming financial stability. The District's second period interim report as of January 31, 2010, satisfies the reporting period. The SAUSD staff recommends the submission of a "qualified" certification. It also indicates that the District will continue to struggle financially through June 30, 2012, and will continue with an abundance of caution.

A PowerPoint was presented which included an overview of California's State budget crisis overview, Second-Interim report, and cash flow considerations. Mr. Bishop stated that there have been no changes since the Governor's January proposed budget, although there is some new information. The State budget gap is \$19.9 billion. The Governor proposes to lower the minimum funding guarantee for schools from \$49.1 billion to \$46.8 billion. Mr. Bishop stated that the State budget assumptions are uncertain. California unemployment remains high with a long road to economic recovery, which appears to be perhaps until the 2014-15 school year. He provided a summary and recommendations from the Orange County Department of Education, includes the following:

- Fiscal/budget crisis was not created by the District, but by Worldwide recession, California Budget situation, and declining enrollment
- Establish reserves levels higher than State recommended minimums
- Conservative cash management - monitor cash flows
- Budget and plan for the most flexibility

Mr. Bishop stated that at this time there probably would be no mid-year cuts to SAUSD. He then called upon Mr. Tsunozumi to review the Second Interim Report.

Mr. Tsunozumi reviewed second interim revenue assumptions, expenditures, and 2010-11 budget cuts (totaling \$34 million,) and multi-year projections with regard to TRANS. He stated that the District successfully closed on its \$9 million TRANS on March 3, 2010 and funds have been deposited and are available if needed for cash flow purposes. He said that continuing deferrals plus new deferrals totals \$170 million, with a potential interest income loss of \$495,000. Mr. Bishop and Mr. Tsunozumi then addressed several questions from the Board.

It was moved by Mr. Hernández, seconded by Mr. Richardson, and carried 5-0, to certify the District may not be able to meet its financial obligations through the remainder of this fiscal year and for the subsequent two fiscal years.
