

## Middle-Skill Jobs

There are **MANY** ways to win when it comes to choosing a pathway to the best career for **YOU!** Not every student will attend a 4 year University. Some will choose a 2-year college plan or earn a certificate or license at a community college or technical or trade school. Let's discover some of these career options to see if they match your interests and abilities.

1. Go to: [www.calcareercenter.org](http://www.calcareercenter.org)
2. Go to "My Stuff" and then "Profile" to create an account.
3. Go to "Students" then "Career Options" and then "Developing Skills for Career Success" and answer the following questions:

A. About half the jobs in the labor market also known as \_\_\_\_\_ - \_\_\_\_\_  
\_\_\_\_\_ require more than a high school diploma, but less than a (four-year) bachelor's degree.

B. They include the \_\_\_\_\_ and generally offer solid wages along with pathways for advancement.

C. From the list of middle-skilled jobs, list the jobs you think could match your interests and abilities: \_\_\_\_\_  
\_\_\_\_\_

D. Circle the skills/interests you have that match the middle-skill jobs you listed above:

fixing things    helping others    working with tools    customer service    science  
looking up "how to" videos    helping in a crisis    organization    using technology  
math    following rules    office work    measuring things    airplanes    big trucks

E. Training and preparation for many middle-skill jobs is provided through \_\_\_\_\_  
programs and \_\_\_\_\_ certificate  
programs.
