

WHAT ARE SOME WAYS THAT PARENTS CAN HELP STUDENTS PREPARE FOR THIS TEST?

Parents can play a critical role in promoting their child's academic growth and overall well-being; here are some suggestions to parents:

- Meet with your child's teacher as needed to discuss their progress. Ask the teacher to suggest activities for your child to do at home to help prepare for tests and improve their understanding of schoolwork.

- Provide a quiet, comfortable place for studying at home.

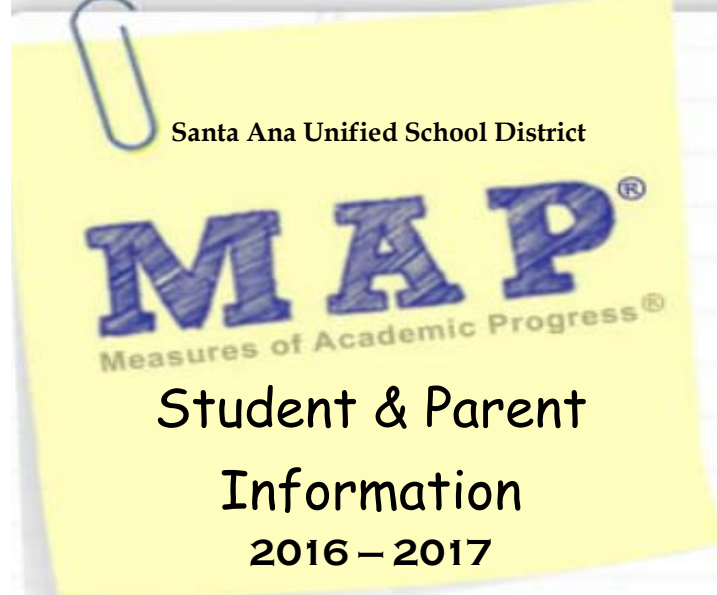

- Ensure that your child is well-rested on school days and especially the day of a test. Children who are tired are less able to pay attention in class or to handle the demands of a test.

- Encourage your child to eat a well-rounded diet. A healthy body leads to a healthy, active mind.

- Suggest books and magazines from the public library for your child to read at home.

WHAT IS MAP?

MAP stands for "Measures of Academic Progress." Students take this test in the subjects of Math, Reading and Language Usage on the **computer**. This is a test that SAUSD uses to measure students' **learning growth**. This test will help teachers identify where each student is currently **ready to learn**.

WHAT CAN WE EXPECT FROM MAP?

- When taking a MAP test, some questions will be easy and others will be more difficult. Students will not get all the answers correct, but that's okay.
- If a student does not know the answer to a question, they should try to eliminate some answer choices, and then choose the best answer out of the remaining answer choices.
- Students *do* need to answer all the questions in order to complete the test.
- Students should give their best effort when testing.

HOW LONG IS THE TEST?

Although the tests are not timed, it usually takes students about one hour to complete each test. Some students take less time; other students will take more time.

WHAT SUBJECTS DOES MAP TEST?

We are using the MAP tests in the areas of **Math, Reading** and **Language Usage** to monitor student growth and progress.

WHO IS ASSESSED IN MAP?

- TK-3rd graders will take **Math** (*Reading is optional*)
- 4th-5th graders will take **Math and Reading**
- 6th-10th graders will take **Math and Reading** (*Language Usage is optional*)
- 11th & 12th graders, optional testing (*decided by individual high schools*)

WHEN WILL STUDENTS BE TESTED AND HOW OFTEN?

SAUSD will test students at the beginning of the school year in the **fall**, in the **winter** and at the end of the school year in the **spring**.

WHAT IS A RIT SCORE?

After completing a MAP test, students will get a RIT score. The RIT score is an estimate of a **student's instructional level**. It is the level where the student is answering the questions correct 50% of the time, so that the teacher can know what the student is ready to learn. The

RIT scale is much like feet and inches on a yardstick that **helps to measure growth from one year to the next**. The RIT scale also measures students progress and academic growth from year to year. We expect RIT scores to increase over time. Typically, younger students show more growth in one year than older students. Students who achieve a higher RIT score often show less growth.

WHAT ARE TYPICAL RIT SCORES?

Just as a doctor has a chart showing the most common height of people at certain ages, the tables below show the average RIT scores of students who were in the same grade and tested across the nation.

2015 READING Student Status Norms				2015 MATHEMATICS Student Status Norms			
Grade	Fall Mean	Winter Mean	Spring Mean	Grade	Fall Mean	Winter Mean	Spring Mean
K	141.0	151.3	158.1	K	140.0	151.5	159.1
1	160.7	171.5	177.5	1	162.4	173.8	180.8
2	174.7	184.2	188.7	2	176.9	186.4	192.1
3	188.3	195.6	196.6	3	190.4	198.2	203.4
4	198.2	203.6	205.9	4	201.9	208.7	213.5
5	205.7	209.8	211.8	5	211.4	217.2	221.4
6	211.0	214.2	215.8	6	217.6	222.1	225.3
7	214.0	214.2	218.2	7	222.6	226.1	228.6
8	217.2	219.1	220.1	8	226.3	229.1	230.9
9	220.2	221.3	221.9	9	230.3	232.2	233.4
10	220.4	221.0	221.2	10	230.1	231.5	232.4
11	222.6	222.7	222.3	11	233.3	234.4	235.0

COLLEGE READINESS SPRING RIT SCORES

The tables below show the minimum Spring RIT scores for students who are likely to be college ready. The listed RIT scores are between the 61st to 84th percentiles in Mathematics and between the 59th to 75th percentiles in Reading.

READING			MATHEMATICS		
Grade	*ACT \geq 22	*ACT \geq 24	Grade	*ACT \geq 22	*ACT \geq 24
5	215	218	5	226	230
6	220	223	6	232	237
7	224	227	7	238	243
8	227	230	8	243	248
9	230	233	9	246	252

*The ACT is an achievement test used to evaluate a student's readiness for college.

REMEMBER...

One low test score is not cause for immediate concern. Like adults, students have good and bad days and their test results do not always indicate what they know. Students' attitude toward the test can also affect their score. Therefore, **growth over time** is a better measure of student learning.
