AP exams format has changed for the Spring 2020 assessment season. Please make sure that you are connecting with your AP instructor(s) about your device capabilities and course materials.

Your AP teachers have met with the District Officials and also within each school site to make sure they are posting information about the AP exams electronically.

Exams will be 45 minute, online free-response questions. The exam will cover 75% of the material from the course. April 3, 2020, the College Board will update their website as to the dates the exams will be offered. There will be two test dates available. It is unknown at the moment if a student can take exams on two different dates, or if they must take all their exams on the same date that they select.

Here are some resources regarding AP:
