Management of Suspected or Confirmed COVID-19 Cases

Students who have COVID-19 symptoms

Stay Home and Test for COVID or Go to the Doctor

1. May return to school **IF**:

- A COVID-19 test taken as early as the day of symptom onset is negative **OR** An alternative diagnosis is obtained from a health care provider (provider's note must be on file)
- No fever for 24 hours without using fever-reducing medication prior to returning to class.
- The symptoms are improving

2. If unable/unwilling to test must continue to stay home through day 10 from the start of symptoms

3. Staying home is not required for more than 10 days from the start of symptoms

4. Recommended to wear a well-fitting mask at all times around other people through day 10

Students who are exposed to a COVID positive person and are showing COVID symptoms should stay home and test for COVID or go to the doctor. Student may return to school **IF:**

- **they are symptom-free and has a negative COVID Test.**
- **or has symptoms but the doctor writes a note allowing student to return to class**

Students who test positive for COVID-19

Stay home for at least 5 days from the date of positive test

1. Positive student may return to school **IF**:

- A COVID-19 test taken on day 5 or later is negative
- The symptoms are resolved or a doctor's note allows student to return to school.
- No fever for 24 hours without using fever-reducing medication prior to returning to class.

2. If unable/unwilling to test on day 5 or later **OR** again test positive, continue to stay home through day 10 from the date of first positive test

3. Recommended to wear a well-fitting mask at all times around other people through day 10

Parents give COVID test result or inform the teacher about the COVID test result.
