IV. Principal's Report

a. Enrollment Overview

Overview of enrollment for next year. Overall enrollment is trending upwards. Addition of TK next year and K-2 show significant growth from this year. Important for sustainability and program increases. Circulos enrollment has gone up about 20% next year. Both schools working on vertical articulation and PBL. Both schools have been doing extensive PD on PBL and have plans to continue to prepare for a strong 2023-2024 school year. Staffing next year needs to be considered. Eventhough overall enrollment increased, staffing allocations decreased. In order to provide a broad course of study to include robust electives and meeting a-g as well as offering AP courses at the HS, we must maintain our current FTE allocation plus 1 (to include the addition of TK).
